

Certificate of Test

Tech Oil Products, Inc.

4308 West Admiral Doyle Drive . New Iberia, LA 70560 . (337) 367-6165

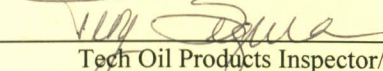

This is to certify that the bottle rack described herein has been subjected to a non-destructive top load lift test as described in BP Cargo Carrying Unit Specifications March 8, 2004 Revision 2. Using certified concrete blocks or by means of hydraulic stress, a four (4) point lift was held for a minimum of five (5) minutes without failure or distortion. After testing, a non-destructive examination was conducted by competent personnel and the bottle rack described herein was deemed "suitable for purpose."
